Professional Experiences

Software Engineer @ Roblox, San Mateo 2022/05-present

- Key technical contributor and advocate for driving datalake schematization at Roblox, delivering over \$10M savings in annual cloud costs
- Promoted DevOps best practices via code-based dashboard and alert generation, runbook documentation, capacity planning, and incident postmortems

Software Engineer @ Twitter, San Francisco 2018/06-2022/04

- Collaborated with multiple engineering functions to recreate and scale Smyte anti-spam infrastructure 10x after acquisition
- Led dataset migration to BigQuery within Twitter Health to accelerate cloud adoption across the org
- Led and designed a personal data anonymizer system to improve personal data handling for Twitter's anti-spam infrastructure

Software Engineer @ Smyte, San Francisco 2015/11-2018/06

- Core member of four engineers building and scaling Smyte's anti-spam engine protecting hundreds of millions of users
- Developed and maintained automation and monitoring for multiple kubernetes cluster with thousands of pods
- Contributed to high impact initiatives such as GDPR compliance and building first machine learning stack for abusive image detection

Software Engineer @ Inkling, San Francisco 2013/04-2015/05

- Designed and developed a video encoding pipeline for mobile devices

Educations

Udacity
Self-Driving Car Engineer I
Certificate

Stanford University
Computer Science
Master (withdrew)

University of Waterloo
System Design
Bachelor
